DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. This application is in condition for allowance except for the presence of claims 11-20 non-elected without traverse. Accordingly, claims 11-20 have been cancelled.

Reasons for Allowance

3. Claims 1, 4, 6, 9-10 and 21 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination of a semiconductor device recited in the base claim 1. Specifically, the combination of the structure comprising a semiconductor substrate including first and second element-formation regions which are partitioned by an isolation trench; first and second floating gates formed on the first and second lower gate insulating films, respectively, the first floating gate including a first side surface and the second floating gate including a second side surface which is opposed to the first side surface, each of the first and second floating gates including an upper surface; an isolation insulating film which is formed at least in the isolation trench

and which includes a depression formed in an upper surface thereof and an uppermost portion located higher than a surface of the semiconductor substrate and lower than the upper surface of each of the first and second floating gates; an upper gate insulating film formed on the first and second floating gates and the isolation insulating film; and a control gate line formed on the upper gate insulating film, and including an opposed portion which is opposed to the first and second floating gates, and a portion located inside the depression so that, each of the first and second side surfaces of the first and second floating gates is entirely opposed to the control gate line, the first side surface of the first floating gate entirely aligning with a side surface included in the first element-formation region and defined by the isolation trench, and the second side surface of the second floating gate entirely aligning with a side surface included in the second element-formation region and defined by the isolation trench.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theresa T Doan whose telephone number is (571) 272-1704. The examiner can normally be reached on Monday to Thursday from 8:00AM - 6:00PM.
